

A strategic FX approach that unlocks growth

Introducing Affinity Exchange, the UK's brightest
new provider of international payments and risk
management solutions.

Introducing Affinity Exchange – experts in payments and risk management in the travel industry.

At Affinity Exchange, we specialise in international payments and risk management, helping businesses navigate global finance with confidence. Our tailored service provides expert guidance and solutions built around your unique needs meaning you gain more than just a provider, you gain a true currency partner.

Combining human expertise with cutting-edge technology, we ensure swift, secure, and seamless international payment that, in an increasingly unpredictable world, bring our clients clarity, confidence and the ability to thrive.

Experts not just in currency, but in your industry

We understand the challenges in the travel sector, from fluctuating exchange rates affecting costs to the strain on internal resources. Market volatility can erode profit margins, but our expertise helps you mitigate risk, protect revenue, and maintain stability in any market condition.

Giving our clients the **Affinity Advantage**

Our Approach

At the core of our approach is a deep understanding of your business. Our analysts and strategists take the time to explore your objectives, industry, and challenges, delivering more than just a transactional service. We provide a tailored, strategic plan for managing overseas payments that reduces risk and unlocks long-term value. By aligning with your goals, we help you seize opportunities and ultimately strengthen your bottom line.

Our Services

Our services are designed to give businesses a foundation for long-term growth in any market conditions, falling into three categories.

Global Payment Solutions

We ensure each transfer delivers maximum value, with seamless execution, competitive pricing and expert support every step of the way.

Currency Risk Management

Protect your bottom line from market volatility through tailored FX strategies to shield your business from long-term market movements.

Business Finance Solutions

Move forward with growth plans without being hindered by cash flow constraints and inflexible supplier terms.

Navigate borders with Global Payment Solutions

We believe international payments should empower growth, not create obstacles. Our promise is to deliver fast, secure cross-border transfers at the most competitive rates, helping your business save time, reduce costs, and stay focused on what matters most.

Spot Transactions

Our connections to multiple liquidity providers means that a transaction made at any time will result in the sharpest possible rate, delivering instant value to our clients.

Speed of Funds

Leveraging the latest SWIFT technology, our payments are frequently settled on the same working day depending on the currency pair.

Collection Accounts

We enable our clients to open bank accounts globally, making it easy to receive foreign payments without the hassle of navigating complex local regulations and bureaucracy.

Complete Transparency

We ensure our clients are always up to speed with their international payments through providing transaction receipts, trade confirmations and access to an online portal with all trading history.

Currency Risk Management strategies built from scratch

We are known as one of the most exciting up-and-coming payment companies in the UK and this is simply down to our service. With nothing 'off-the-shelf', our approach gives you a dedicated account manager that builds bespoke risk management strategies that provide long-term value.

Forward Contracts

Agree rates now for future transactions, giving businesses peace of mind that transactions can be executed without the threat of market volatility.

Bespoke Hedging Solutions

We offer custom-built FX strategies that help businesses establish or maintain a competitive advantage and not allow market movements to impact their bottom-line.

Dedicated Account Management

The true value of what we offer comes from our specialists who always put the needs of their clients first, offering a premium service that gives businesses an extra edge.

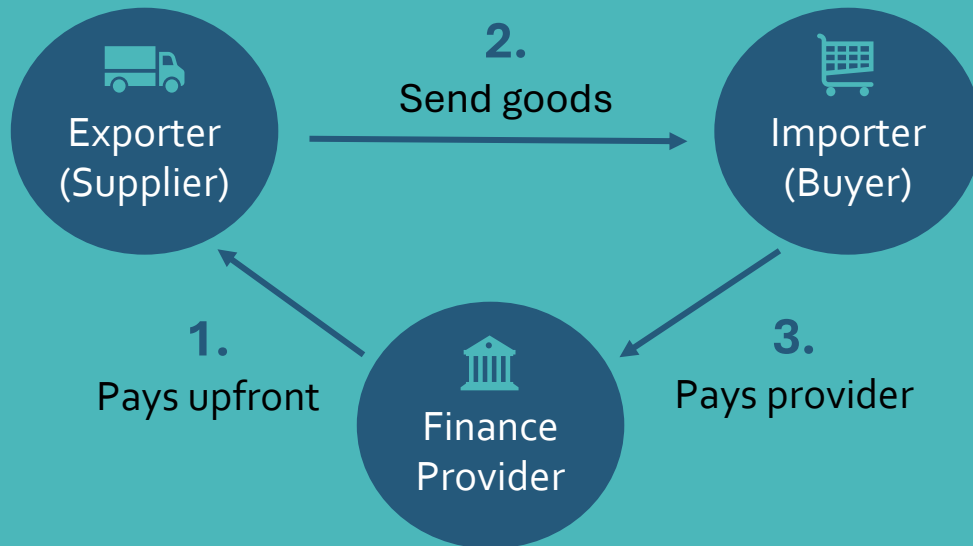

Built by us, for you.

Before we suggest any strategy, we conduct a deep-dive to identify the key objectives, principle pain points and the existing opportunities for every client, as well as a review of their industry and competitors.

Continue growth without cash-flow constraints

Trade Finance

Trade finance provides businesses with essential working capital, bridging the gap between supplier payments and customer receipts to support smooth operations, even when faced with long shipping times or restrictive payment terms.

Pay suppliers up front

Trade finance enables upfront payment to suppliers, accelerating shipping times and allowing businesses to complete sales more quickly and at greater scale.

A win-win for your network

Suppliers are paid faster, allowing goods to be dispatched quickly and customers to receive products sooner, keeping your supply chain moving, meeting demand, and strengthening relationships across your entire network.

International payments in 3 easy steps

1.

Registration

-  Verify basic personal details
-  Sign Terms & Conditions
-  Onboarding checks complete

2.

Agree Rates

Once your account is open and ready for trading, rates can be agreed on your next transaction. This is confirmed with a Trade Confirmation.

3.

Complete Transaction

The trade is complete once your funds reach our segregated client fund account, when you will be issued with a Transaction Receipt.
